

DR. GUIDO
AI DOCTOR APP

PITCH (EN)

What is your experience with the doctor?

1. **Long Waiting Times:** *"I'm really frustrated by the long waiting times for appointments or waiting in the waiting room. It feels like my time isn't considered important."*
2. **Difficulty of Access:** *"It's incredibly hard to get a quick appointment, and I often can't even reach my doctor when I need to."*
3. **Inadequate Communication:** *"I feel confused and unsatisfied when my doctor doesn't explain my conditions or treatment plan clearly. I'd like to have clearer information."*
4. **Lack of Empathy:** *"I feel like my doctor doesn't genuinely care about me or my concerns. I'd like to be listened to and understood."*
5. **Diagnosis Errors:** *"It's been frustrating and often harmful to receive incorrect diagnoses or missed diagnoses. I expect more accurate medical care."*

Did you know that:

Currently, in developing countries, there are only 3 doctors available per 1,000 people, while in developed countries, there are 5 doctors available for the same population.

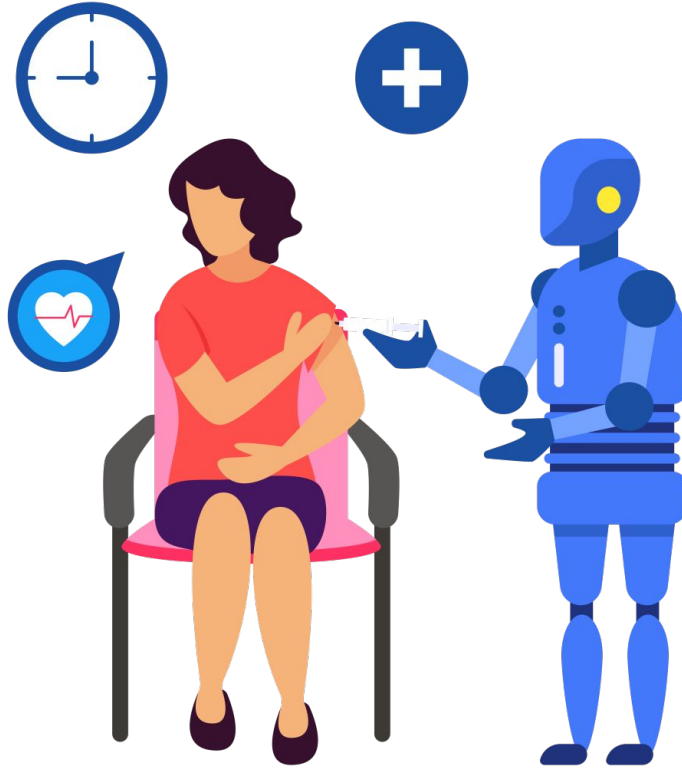

Italy: 4.3 doctors per 1,000 people (1 doctor for every 286 people).

I introduce you to the
Dr. Guido

Dr.Guido is: AI Doctor

Objective:

To revolutionize global healthcare by providing every individual access to an AI-based Doctor.

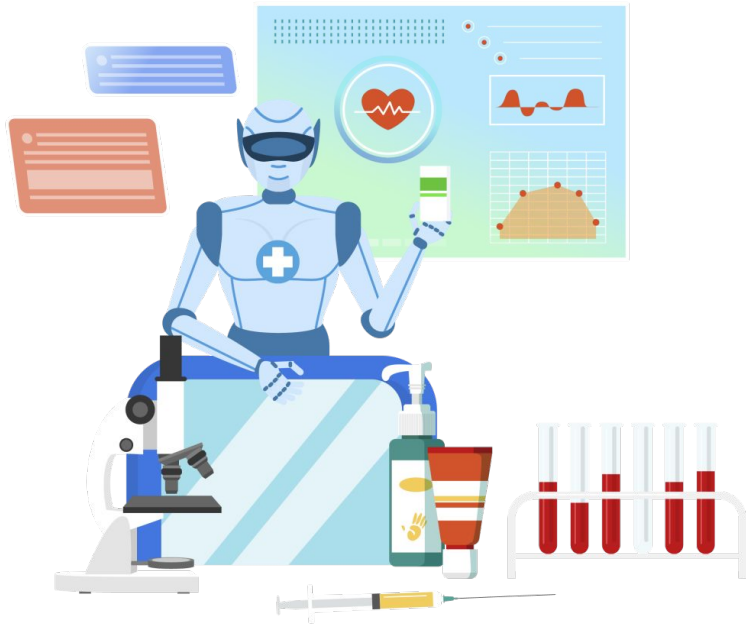

Dr. Guido's ChatBot

*The primary function of Dr. Guido's AI chatbot is **patient interaction**, providing **empathetic interactions for pre-diagnosis**. It instantly assists patients in real-time, responding empathetically to health-related questions, aiding in prescription management, and providing information on medications and dosages.*

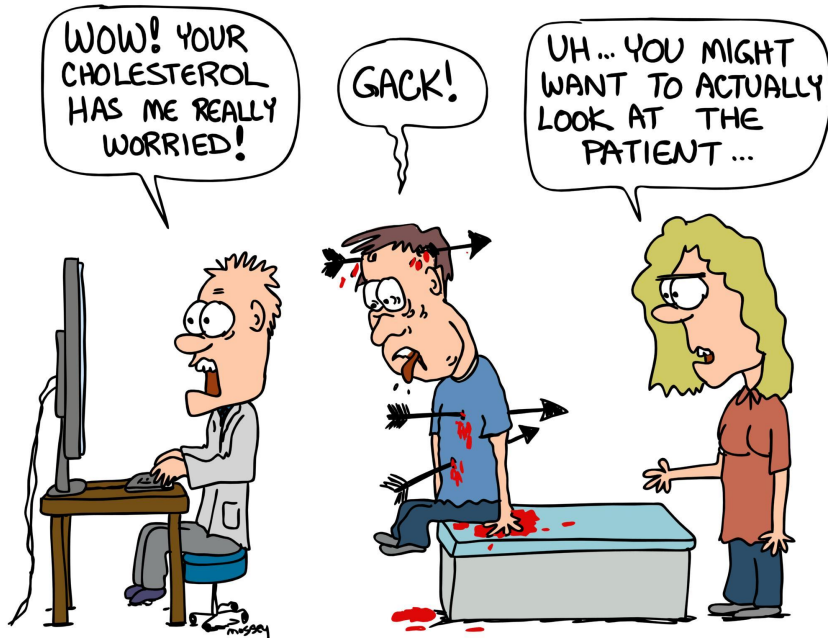

Dr. Guido's AI Services

1. **Pre-Diagnosis:** *The Chatbot assesses descriptions and photos of health issues to provide a quick preliminary diagnosis.*
2. **Second Opinion:** *Offers additional evaluations on existing diagnoses to confirm or explore other diagnostic options.*
3. **SmartMed Scan:** *Analyzes and provides synthesized information on medications and their details.*

Keyword: EMPATHY

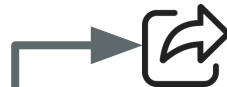

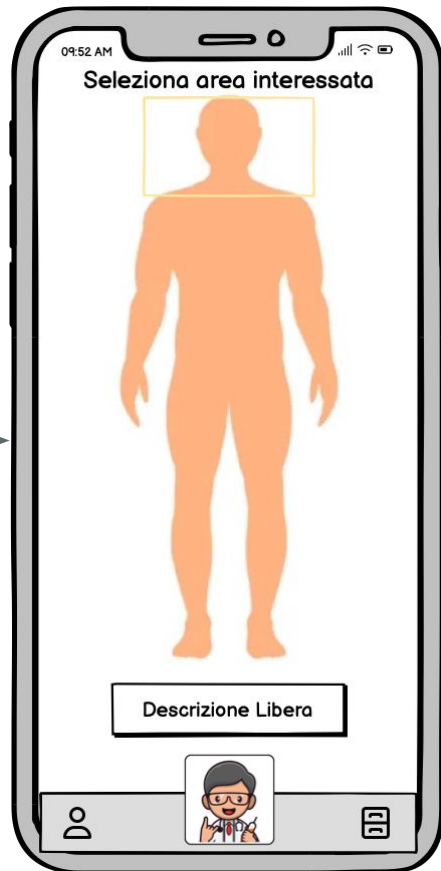

An empathetic chatbot that inspires enthusiasm in its usage.

- It should absorb the user's tension when facing a problem.
- Facilitate the treatment process.
- Make the user's life easier.

Absolutely PRIVACY

Data security and anonymity are the cornerstone of Dr. Guido, fully compliant with international regulations and the European Artificial Intelligence Act (AiAct).

Don't forget that:

Dr. Guido's Pre-Diagnosis is an initial analysis of information provided by users regarding a potential medical condition. However, it never replaces consultation with a professional doctor. Dr. Guido provides initial suggestions but always encourages users to consult a medical professional for a definitive diagnosis and personalized medical advice.
